CAREER OBJECTIVE

Final-year Information Science student with hands-on experience in full-stack development using React, Node.js, and MongoDB. Built scalable web and Android applications including an e-commerce platform with secure payment integration. Seeking an entry-level software developer role to build high-impact applications.

TECHNICAL SKILLS

- **Languages:** Java, C, C++, JavaScript, Python
- **Web Technologies:** HTML5, CSS3, Node.js, Express.js,React
- **App Development:** Android (Java)
- **Databases:** MySQL, MongoDB
- **Tools:** Git, GitHub, Postman, VS Code, Android Studio
- **Concepts:** SDLC, Secure Coding, Data Structures & Algorithms

ACADEMIC PROJECTS

Full-Stack Electronic Gadget E-Commerce Platform

(Web | React.js, Node.js, Express, MongoDB)

(Vercel Deployed Link : https://electronic-shop-front-end-darshan.vercel.app/)

- Developed a **full-stack e-commerce platform** with a responsive React.js frontend and Node.js/Express backend for seamless gadget browsing and purchasing.
- Designed **RESTful APIs** and integrated **MongoDB** to handle scalable CRUD operations for products, categories, and inventory.
- Implemented **secure authentication (JWT, Bcrypt)** and integrated **Razorpay payment gateway** for safe online transactions.
- Developed a **full-stack e-commerce platform** with a responsive React.js frontend and Node.js/Express backend for seamless gadget browsing and purchasing.
- Designed **RESTful APIs** and integrated **MongoDB** to handle scalable CRUD operations for products, categories, and inventory.
- Implemented **secure authentication (JWT, Bcrypt)** and integrated **Razorpay payment gateway** for safe online transactions.

Bake Track – Smart Bakery Management App

(Android + Web | Java, Firebase, HTML, CSS, JS)

(GitHub Pages Link : https://darshangithub123.github.io/BakeryNewWeb/)

- Developed a real-time bakery management system for Managers, Distributors, and Customers.
- Implemented modules for inventory, billing, and analytics using Firebase Realtime Database.
- Added live notifications for stock, expiry, and payment alerts.
- Followed Agile (Scrum) methodology for development and delivery.

EchoVision - Voice Assistant for the Visually Impaired

(Android | Java)

- **Architected a hands-free Android assistant** utilizing a persistent foreground service and Accessibility Services to enable system-wide voice control via hardware button triggers.
- **Integrated Gemini AI** to provide contextual scene description, OCR, and "Advance Assist" mode.
- **Developed a real-time volunteer assistance module** using **Socket.IO** and Node.js, enabling live video/audio streaming between visually impaired users and sighted volunteers.
- **Implemented deep-link integration** for third-party applications (YouTube, Spotify, WhatsApp) and Android Geo Intents for navigation without requiring external API keys.
- **Engineered a custom Command Router** to classify and dispatch voice intents for system controls, SMS/Telephony, and media playback.
- **Built a notification listener service** to intercept and read incoming alerts aloud, ensuring a completely eyes-free user experience.
- **Maintained Markdown documentation** covering system architecture, setup guides, and project structure.

INTERNSHIP EXPERIENCE

Software Development Intern – Exposys Data Labs

(Remote, July 2025)

- Developed a secure file and message transfer system utilizing the AES-GCM-256 encryption algorithm.
- Implemented authentication and user verification modules using Python.
- Built logic-based identity verification to manage user access and security.
- Configured algorithm parameters to handle data encryption and transfer speed.

EDUCATION

Bachelor of Engineering (B.E.) in Information Science and Engineering
SDM College of Engineering & Technology – 4th Year
CGPA : **9.15**
(2026)
USN: 2SD22IS013

PUC-(2022) : 93.17%
SSLC -(2020) : 92.48%

RELEVANT COURSEWORK

- **Operating Systems**
- **Computer Networks**
- **DBMS**
- **Software Engineering**
- **Data Structures & Algorithms**
- **Object-Oriented Programming**

HOBBIES & INTERESTS

-Exploring Emerging Technologies
-Programming
